

Silver Eagle Stalker

Safety Warning and Recall Notice

DO NOT LOAD ANY GUN AFFECTED BY THIS NOTICE UNTIL YOU HAVE COMPLIED WITH THE REQUIRED ACTIONS. FAILURE TO HEED THIS NOTICE MAY RESULT IN INJURY OR DEATH.

Products Affected: Silver Eagle Stalker .410 single-shot shotguns distributed by T R Imports Inc, serial numbers beginning in 14- and 15-.

Explanation: Pulling a single release lever unlocks and cocks the Stalker. In the event the trigger is pulled with the gun opened, a backup mechanism re-cocks the gun on closing. In a few cases, the mechanism has failed to cock the gun completely, allowing the hammer to fall and the gun to fire on closing. While there have been no reported incidents of damage or injury resulting from this defect, it is important that you comply immediately with this notice.

Required Action: STOP USING YOUR GUN. Although T R Imports is in the process of notifying individually all known owners, do not wait: contact T R Imports directly for free inspection and, if necessary, repair or replacement of the firearm.
